WATER AUTHORITY OF NORTH SHORE | NOVEMBER 2026

NORTH SHORE WATER UPDATE

DID YOU KNOW?

Liberty publishes a water quality report for the Sea Cliff system every year. It lists what the water is tested for and what was found. Search “Sea Cliff water quality report” at libertyenergyandwater.com.

Liberty’s Rate Request

Liberty Utilities has asked the state Public Service Commission to raise water rates in Sea Cliff, Glen Head, Glenwood Landing, and parts of Old Brookville, Glen Cove and Roslyn Harbor. Liberty wants to collect about **30% more** from customers in its service area. According to the Commission, the average Sea Cliff bill would rise by about $27 a month.

Liberty says the money would pay for iron removal, PFAS and PFOA treatment, replacing lead service lines and replacing water mains.

WANS believes Liberty has stalled negotiations on the sale of the water system in order to secure a rate increase first. WANS has asked the Commission to reject the increase.

Make your voice heard
Written comments are due **Friday, Dec. 11**. Go to dps.ny.gov, select File Search, enter case number 26-W-0358 and select Post Comments. If you registered to speak, the online public hearing is **Wednesday, Dec. 2**, at 1 p.m. and 5 p.m.

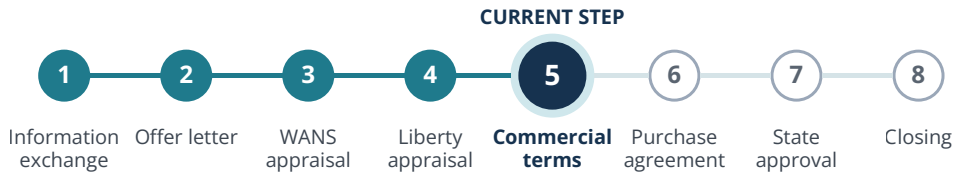

Contact your state legislators: find your senator at nysenate.gov/find-my-senator and your Assembly member at nyassembly.gov/mem/search.
A one-page explainer is posted at wanorthshoreny.gov.

Know Your Water: Where It Comes From

All of the tap water in the service area comes from just two wells. They pump water from deep underground. Before the water reaches your tap, it is disinfected and treated to protect pipes from corrosion and keep water from discoloring. The system serves about 13,000 people through roughly 4,400 connections.
